

PRACTICE CENTER PROGRAM

With the same exciting graphics and realism of our LS Golf 3 Simulator, the Practice Center program is the purest and most accurate practice and club fitting program yet. This is a true 3D ball flight practice program. When combined with our Pro Grafix 3 program, the total system is the most powerful and accurate golf software on the market. Use it to play golf holes on a Robert Trent Jones designed course that offers a variety of challenging golf shots. With its multi area design, it offers:

- A Driving Range with selected target distances
- A large selection of Approach shot positions
- A Chipping area with various shot locations

- Driving Range Screen shows:
- 3D Ball flight
 - Shot Statistics
 - Number of Shots
 - Shot Average
 - Vertical Trajectory
 - Horizontal Flight pattern

There are three golf holes that can be played, all are from the Robert Trent Jones designed course "The Judge" located in Alabama. These golf holes play, and have the same features as our commercial simulators, there is a Par3, a Par 4 and a Par 5. The closest to the pin contest is played on the Par 3 hole.

Select from:

- 1 Hole practice
- Regular practice
- 3 Hole play
- Long Drive Contest
- Closest to the Pin Contest

PAR 3 Golf Hole

The program requires a Pro-V, Pro 7 analyzer for operation.
